---

## NATIONAL SKI PATROL

25 July 2012

F600 Annual Report for 2011-2012

1. Current membership: 318

For most only email and telephone number are available. For 10 only the name is available. Up to a year ago total registration data up to and including awards was available. It is estimated that approximately 100 are life members, and only Homewood had alumni & secondary members.

2. Activities: Administrative work or Area Host for our group or for a former patrol, and only if the patrol representative or the area director requests it. For many years an alumni handled ESR awards but this actually was a violation of Chapter 10 of our rules and procedures.

3. Programs: The only national programs expected or encouraged are fund raising and recruiting. This is true of all worldwide alumni associations. But in order to do this an alumni chair should still ski be able to visit areas, and know personally the local leaders.

4. Future: The national board has been searching for someone to be the national alumni coordinator. As of now I am unaware of any appointment. But whoever is chosen will be farther from the action than I am now. He or she must be able to contact each of our divisions including the professional division. The expenses of the job (maybe including travel) must be met positively by the funds and dues obtained.

F. R. Shoemaker  
FWD Alumni Coordinator
