

REPORT TO THE FAR WEST DIVISION  
**PROGRAM STATUS REPORT**  
***2013 – 2014 SEASON RECAP***  
REPORT DUE June 13, 2014

**PROGRAM: FWD Medical Advisor**

**FROM:** Keith Tatsukawa

**DATE:** 6-21-2014

**Limit report to 1 page — do not send as PDF — email to Secretary waits\_janice@cusdk8.org**

**SEASON HIGHLIGHTS —**

This past season I attended the Dec 2013 OEC Supervisors Meeting and accompanied Kevin Qualseth as the new FWD OEC Supervisor. I also represented the FWD as the only Medical Advisor attending the OEC supervisors meeting. A very hot topic was the OEC component of the Senior program. Discussion and changes were made and this program will continue to be a dynamic and improving program. I still participate on several OEC sub-committees and maintain contact with Dr Johe and the National Medical Advisory Board.

**GOALS FOR COMING SEASON:**

I have had met with Dr Johe on several occasions last season and have spoken to him regarding the for all of the Division Medical Advisors to meet face to face. At this meeting the intent would be a venue where we can hear current OEC issues and to discuss medical direction and oversight issues. Since my time as the FWD Medical Advisor, we as a group have never met with the other advisors or Dr Johe. I'm hoping that this coming season we will have the opportunity to get together. On the local FWD front, I will continue to help support the OEC program, the FWD OEC Supervisor, Its and Instructors in any way that I can

**ISSUES and RESOLUTIONS:**

The issues seem to be lack of overall communication and the resolution would be to improve from the bottom up levels to improve communication and innovations.
