

REPORT TO THE FAR WEST DIVISION
Northern California Region
Winter – 2013-2014 SEASON REPORT
Region Director: Jason Allen
DATE: March 7, 2014

Registration/Membership: Overall registration is down about 4% however a few patrollers have not yet shown up on the national site.

Financial: Region finances are in good shape as we have had minimal expenses Report on Patrols:

Lassen and Coppervale are unchanged.
No classes were conducted at either patrols.

Mt.Shasta patrol has gained a number of new instructors in OEC and candidates have added to the total patrol numbers as well as some challenges from paid patrol to join NSP that have still not showed up on the national site.

Mt.Shasta had an avalanche one and avalanche refresher on schedule however due to the drought and Mt.Shasta Ski park only being open for four days with one run about three snow cats wide these courses will not occur.

Mt.Shasta was also very proud to award several awards for the life saving efforts of a number of NSP region members. Two purple merit stars, four blue merit stars and one certificate of appreciation to a non NSP member all from Mt.Shasta.

ISSUES and RESOLUTIONS:

We have been able to build our OEC instructors base. Which for our small region makes it easier to conduct refreshers, OEC Classes and accelerated OEC classes. RegRpt form.doc

GOALS FOR COMING SEASON:

focus on training patrollers to beyond basic patrol level and recruit new members.
