SEASON HIGHLIGHTS — total classes — total participants

Both Teams remain in Standby Operational status. Minimal winter weather/storms were cause for very limited active response call-outs for the State of California OES. Teams currently are maintaining at 35 - 40 registered members.

GOALS FOR COMING SEASON:

Continue with on-going advanced winter response trainings and continue with recruiting and training new FWD NSP Patrollers.

ISSUES and RESOLUTIONS:

Recruitment of new active Level-1 Team Participants remain at present levels, which are low due to advanced training requirements for the Level-1 Winter Teams. Advanced Training remains a high priority for both teams.
