SEASON HIGHLIGHTS — total classes ??— total participants??

The new OFC online course is out and with simple instructions on how to use it.

All IOR's are now aware of the outside IT, or assigned IT policy for credentialing courses and are planning accordingly.

GOALS FOR COMING SEASON:

Get Alumni involved more with OEC .

Promote the OEC Module of the senior program a little more, and the old auxiliary program,

To have our region advisors familiar with the OFC online course so they can expose it to all patrols for their use.

To start with the scheduling of Refresher/Recertification's for our Senior Trainer Evaluators, this refresher is required every three years.

ISSUES and RESOLUTIONS:

Some Course completions, and other paperwork sent to NSP are not being documented, or processed by the office. We need to be continuously checking up on this until it gets corrected.
