

REPORT TO THE FAR WEST DIVISION
PROGRAM STATUS REPORT
FWD 2015 – 2016 RECAP
 REPORT DUE June 30, 2016

PROGRAM: FWD Medical Advisor

FROM: 8-2015

DATE: 8-2016

Limit report to 1 page — do not send as PDF — email to Secretary waits_janice@cusdk8.org

SEASON HIGHLIGHTS — total classes — total participants
 N/A

GOALS FOR COMING SEASON:

It has been a challenging season trying to keep in touch with the National Medical team. We are very spread out by geographical division and Dr. David Johe has had his hands full with advancing several programs. One important program is to identify a data base of physicians that may be willing to work with the NSP. Currently we do not have an accurate up to date list. We are searching for individuals to volunteer as a medical liaison between patrol, region and division Medical Advisors. Each patrol would ideally have a physician that would be willing and able to assist in a “local peer review process”. This process of peer review has not been clearly delineated yet but there is a need and the process has begun.

Beginning at a patrol level, I would like to request any names of physicians that may be willing to work with NSP in this review process. Patrol Representatives/Directors, I would like to hear from you if you know of any physicians that may be interested. Please email me.

ISSUES and RESOLUTIONS:

Communication can always improve and use of the NSP database for dissemination of pertinent data. The content for NSP OEC and OFC programs is continuing to evolve and change. It is important to keep in mind the primary consumer for these products are ski patrollers and secondly perhaps mountain guides and other outdoor enthusiast. Always keeping the content relevant to our main ski patrollers can be challenging.
