GOALS FOR COMING SEASON:

- A lower learning curve for members accessing NSP website, paying dues, enrolling in courses, accessing records.
- Patrol Representatives "Managing Patrol Roster" better. All patrols registered by November 15.
- Supervisors and Advisors have accurate / complete access to Course Reports and Rosters
- IOR's and IT's closing courses two weeks after the End Date.
- Alumni - registration by Regions

ISSUES and RESOLUTIONS:

- Implementation of the NSP website and IT system since August 1, 2016 was difficult on many levels. The learning curve was steep and several members were resistant to the change. It is by no means perfect, but once you learn the process, the end result is more efficient and accurate.
-
- The solution has been one member at a time: each Supervisor, each Advisor, each PR, and every member.
-
- The numbers above reflect the success of members at all levels using the system successfully. Members paid their dues online and can access their profile with training records. Instructors registered courses and members enrolled.
