**SEASON HIGHLIGHTS — total classes — total participants**

OEC module of the senior program, One at SO Cal, one at MLR regions total of 5 passing, 9 enrolled.

T/E clinic at MLR was a good turnout.

**GOALS FOR COMING SEASON:**

To have clinics scheduled early on in the year so all can plan to attend , T/E, Senior non credit clinics and SEM for credit

Put out there that the online OEC is getting more friendly to use, not many are taking advantage of it.

Establish better communication between regions

**ISSUES and RESOLUTIONS:**

Time frame on the notice of the OEC Senior events need to be put on the calendar at the beginning of the year

I plan on communicating with the STC's early on to get this done

Course students are not registering for courses when the time comes to close the course there are many that have not signed up We need better Instructor training with this

I plan to visit with Doug Hill to accomplish this
